

Create a project called Daily3. Add a C source file to the project named daily3.c. Write a program that prints the following on the screen:

Hello, my name is <insert your name>. This class is "WICKED COOL"!

Something about me: <insert something about yourself that I may associate with you as I try to learn your name>

```
C:\Windows\system32\cmd.exe
Hello, my name is Dr. Adams. This class is "WICKED COOL"!
Something about me: I sing in a barbershop quartet (see below).
https://www.youtube.com/watch?v=hDu4C9eWEuk
Press any key to continue . . .
```

Turn in your C source file, daily3.c, on Blackboard. Let me know if you have any questions.
